Here are the rules that we came up with in class, together. They are designed with these goals in mind: achieving our potential, happiness, respect and attaining (aiming high!).

- Listen to other people speak and wait until they have finished before talking
- Think before you speak or act
- Treat others how you would like to be treated yourself
- Help people when they need it
- Respect what people are saying and if you don't agree, disagree respectfully
- Always try to be positive
- Respect classroom property and the property of others
- Try your best, using a range of strategies when going gets tough
- Try not to give up, even if you are struggling
- If you don't have something nice to say, keep it in your head
- Keep your hands to yourself
- Consider using your growth mindset
- Keep calm
- Try to work quietly
- Be thankful
- Be polite and use your manners
- Do your work when you are supposed to
- Try not to get distracted and manage your own behaviour
